

# ECONOMIC DEVELOPMENT PARTNERSHIP

## Priority 1: Economic Development Partnership

There is not a firm or individual who lives, works, or does business in the Lake Houston Area that does not gain or lose, in a very tangible way, with the rise and fall of the Lake Houston Area regional economy. The Lake Houston Economic Development Partnership (EDP) is a community based organization formed to encourage economic development in the area by focusing on facilitating the creation and growth of primary job opportunities.

The mission of the Lake Houston Economic Development Partnership is to facilitate new employment opportunities and capital investment in the Lake Houston Area through the retention, expansion and attraction of commercial, industrial, manufacturing, distribution, logistics and professional service businesses.

Economic Development Partnership goals:

1. Develop and update economic development information services to provide potential clients with timely and useful data.
2. Further the Business Retention and Expansion program activities in the Lake Houston Area.
3. Recruit primary jobs to the Lake Houston Area.
4. Market the Lake Houston Area as a great place to do business.
5. Provide support and assistance to the expansion of small businesses, minority and women owned businesses and the development of entrepreneurship in the area.
